

MANUFACTURING QUALITY ASSURANCE REPORT

EXECUTIVE SUMMARY

INSPECTION DATE	2026-03-02 12:41:25
VIDEO SOURCE	stream_f4c0ed01_2026-03-02T12-39-18.923302Z_st_0.000_end_6.267_clip_1.mp4, stream_f4c0ed01_2026-03-02T12-39-18.923302Z_st_9.967_end_29.800_clip_2.mp4, stream_f4c0ed01_2026-03-02T12-39-18.923302Z_st_35.367_end_46.733_clip_3.mp4, stream_f4c0ed01_2026-03-02T12-39-18.923302Z_st_53.067_end_68.667_clip_4.mp4
OVERALL VERDICT	PASS

SUMMARY: All observed cardboard boxes met the required safety and compliance standards, with no critical defects such as crumpling, tearing, dents, creases, or open flaps detected. Minor non-critical observations were noted but did not impact overall compliance.

PROJECTED IMPROVEMENTS

- Implement a standardized process to address minor surface roughness and creasing to maintain consistent product presentation.
- Develop a protocol for handling periods with no boxes present to ensure continuous monitoring and documentation.
- Enhance observer training to ensure consistent classification of minor deviations as non-critical defects.

POSITIVE HIGHLIGHTS

- All critical inspection criteria were consistently met across all events, ensuring structural integrity and safety of the cardboard boxes.
- Observers demonstrated thoroughness in identifying and documenting both critical and non-critical observations.
- No instances of open flaps, tearing, or crumpling were observed, indicating strong adherence to packaging standards.

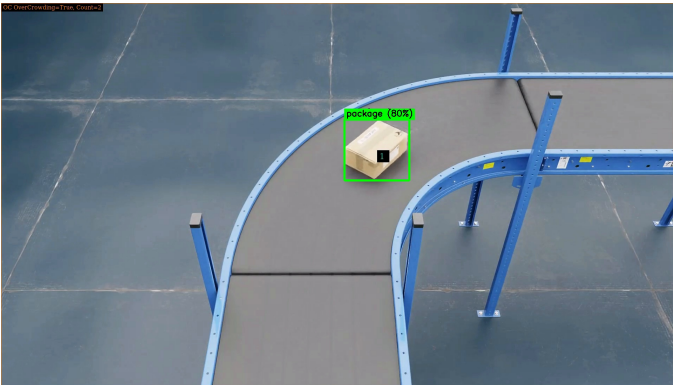

SOP AUDIT CONTEXT

Inspect the cardboard boxes on the conveyor belt for: 1) Crumpling, 2) Tearing, 3) Dents, 4) Creases, 5) Open flaps/boxes.

DETAILED FINDINGS & VISUAL EVIDENCE

Finding 1: Inspection Finding

TIMESTAMP 12:40:51
SOP SECTION Packaging & Shipping Standards
COMPLIANCE SCORE 100%

AUDIT ANALYSIS:

CHRONOLOGICAL AUDIT TIMELINE:

[0.0s - 5.0s]: The cardboard box exhibits no visible crumpling, tearing, dents, creases, or open flaps throughout its movement on the conveyor belt.

[4.0s - 6.3s]: Yes

Finding 2: Inspection Finding

TIMESTAMP 12:41:01
SOP SECTION Packaging & Shipping Standards
COMPLIANCE SCORE 98%

AUDIT ANALYSIS:

CHRONOLOGICAL AUDIT TIMELINE:

[0.0s - 5.0s]: No instances found

[4.0s - 9.0s]: No anomalies detected; all boxes are intact with no crumpling, tearing, dents, creases, or open flaps.

[8.0s - 13.0s]: **Cardboard Box Condition Observations:**

1. **Crumpling:** No crumpling observed in either set of boxes.
2. **Tearing:** No tearing detected in either set of boxes.
3. **Dents:** No dents noted in the white boxes; slight surface roughness observed on the brown box.
4. **Creases:** No creases present in the white boxes; minor creasing possible on the brown box due to wear.
5. **Open Flaps:** All white boxes have closed flaps; the brown box shows no open flaps during motion.

[12.0s - 17.0s]: The cardboard boxes show no visible damage; they remain intact with closed flaps, no crumpling, tearing, dents, or creases.

[16.0s - 19.867s]: No anomalies detected; the cardboard box remains intact with no visible damage (crumpling, tearing, dents, creases, or open flaps).

Finding 3: Inspection Finding

TIMESTAMP 12:41:10
SOP SECTION Packaging & Shipping Standards
COMPLIANCE SCORE 100%

AUDIT ANALYSIS:

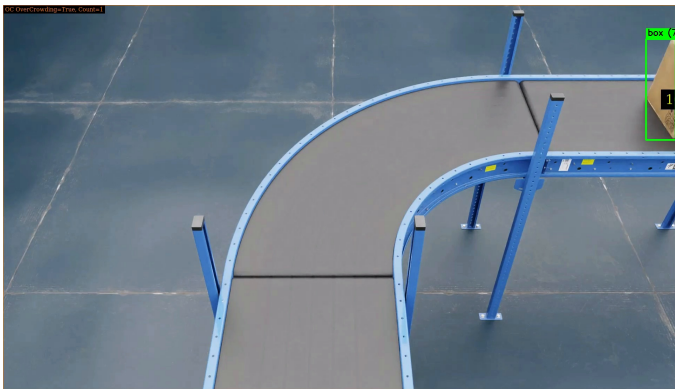

CHRONOLOGICAL AUDIT TIMELINE:

[0.0s - 5.0s]: No observable items related to the inspection criteria (crumpling, tearing, dents, creases, open flaps) as no cardboard boxes are present on the conveyor belt.

[8.0s - 11.4s]: No observable anomalies or artifacts present. Cardboard boxes show no signs of damage (crumpling, tearing, dents, creases, open flaps).

Finding 4: Inspection Finding

TIMESTAMP 12:41:20
SOP SECTION Packaging & Shipping Standards
COMPLIANCE SCORE 100%

AUDIT ANALYSIS:

CHRONOLOGICAL AUDIT TIMELINE:

[0.0s - 5.0s]: None of the specified defects (crumpling, tearing, dents, creases, open flaps) are visible as there are no cardboard boxes or conveyor belts shown in the video. The scene only shows a stationary blue metal structure and a concrete floor.

[4.0s - 9.0s]: The cardboard box shows no visible signs of crumpling, tearing, dents, creases, or open flaps; it remains intact and sealed while moving along the conveyor belt.

[8.0s - 13.0s]: No visible anomalies detected. Cardboard box remains intact, sealed, and undamaged throughout the conveyor belt movement.

[12.0s - 15.633s]: No visible signs of damage (crumpling, tearing, dents, creases) or open flaps on the cardboard box; it remains intact and structurally sound throughout the lifting process.
